

Squedge 15 Spikes

The Squedge 15 uses six pieces per quadrant as opposed to only four with the 22.5. The additional pieces offers an opportunity to do some delicate spikes. It looks so difficult, but it's the same Squedge magic!

Yardage			Cutting
Fabric	Exact Amount	Suggested Yardage	Strips
A	45 1/2"	1 1/2 yds	five 3 1/2" x width
			six 2 3/4" x width
			two 4 3/4" x width
B	43 1/2"	1 1/2 yd	thirteen 3 1/2" x width
C	3 1/2"	1/8 yd	one 3 1/2" x width

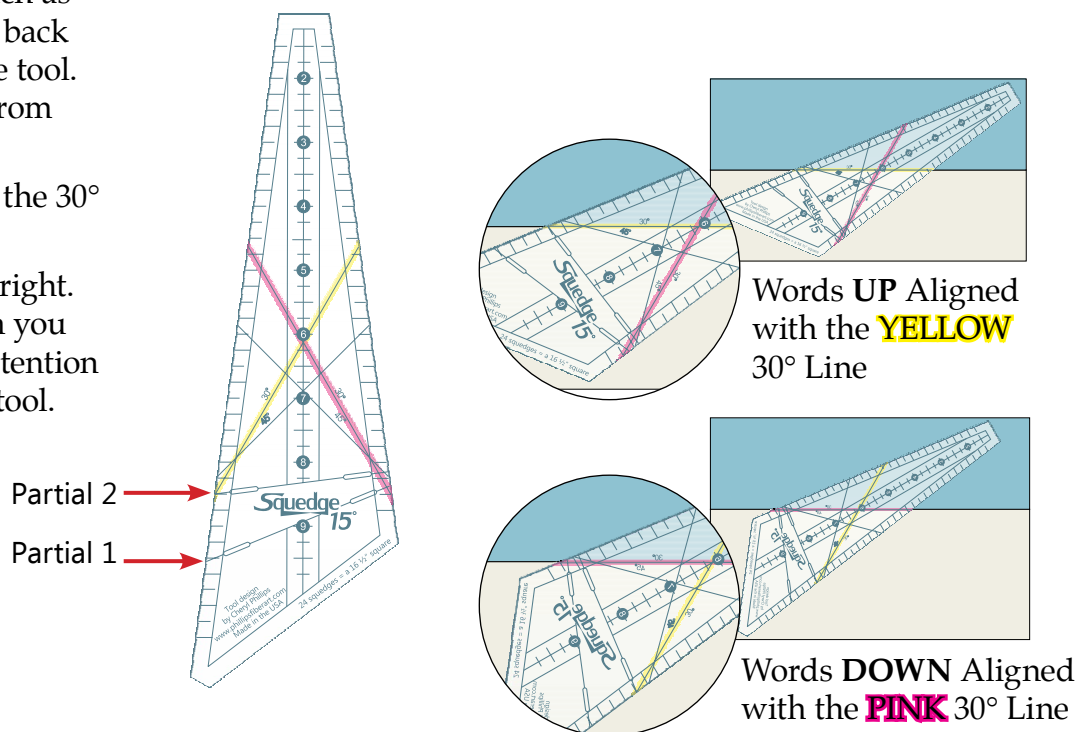

Tool Preparation

Apply adhesive rings such as True Grips™ to both the back and front of the Squedge tool. This will keep the tool from slipping while cutting.

Also apply glow tape to the 30° lines in both directions.

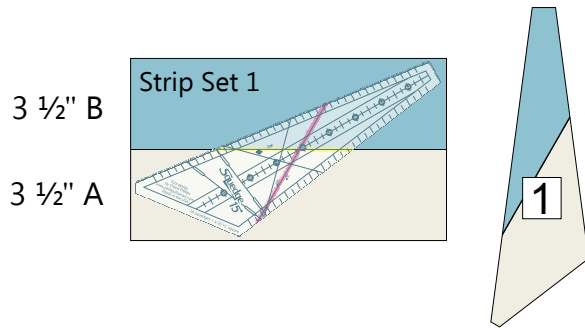

See the diagrams to the right. When doing this pattern you will need to pay close attention to the direction of your tool.

See the Squedge 15 tutorial for more about using the Squedge 15 tool! Available for download on the Free page!

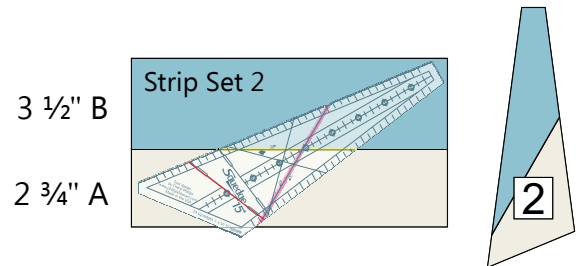

Assemble Strip Sets

- Sew one strip of Fabric A to each strip of fabric B Total of 13 strip sets.
- Print labels on page 4 to keep you organized.

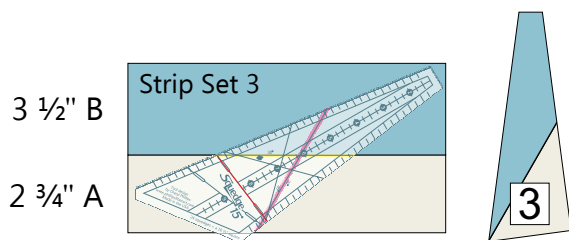

Piece 1

- Use strip sets from B plus 3 1/2" A.
- Place tool words **UP** aligning the **YELLOW** 30° line with the seam of the stripset.
- Cut 14 full pieces

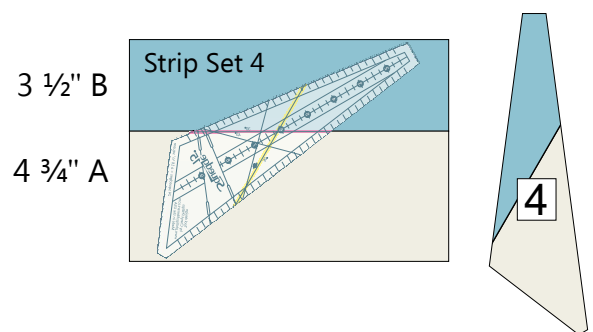

Piece 2

- Use strip sets from B plus 2 3/4" A.
- Place tool words **UP** aligning the **YELLOW** 30° line with the seam of the stripset.
- Cut 14 partial 1 pieces.

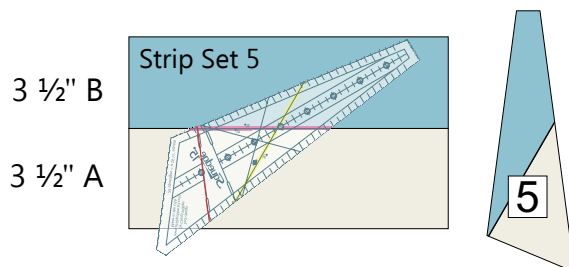

Piece 3

- Use strip sets from B plus 2 3/4" A.
- Place tool words **UP** aligning the **YELLOW** 30° line with the seam of the stripset.
- Cut 14 partial 2 pieces.

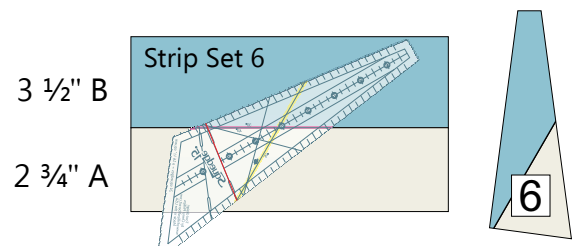

Piece 4

- Use strip sets from B plus 4 3/4" A.
- Place tool words **DOWN** aligning the **PINK** 30° line with the seam of the stripset.
- Cut 14 full reverse pieces.

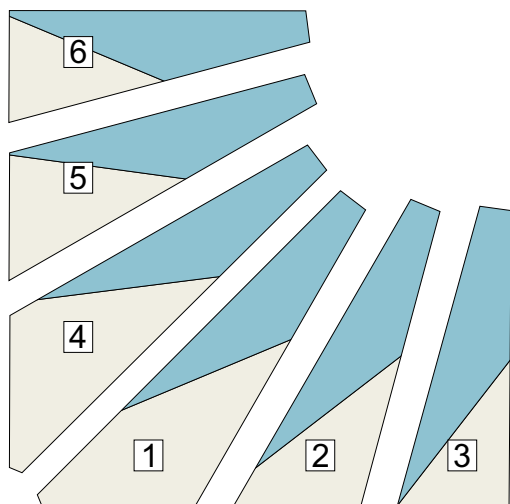

Piece 5

- Use strip sets from B plus 3 1/2" A.
- Place tool words **DOWN** aligning the **PINK** 30° line with the seam of the stripset.
- Cut 14 partial 1 reverse pieces.

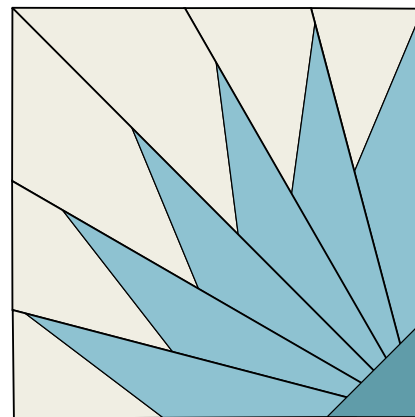

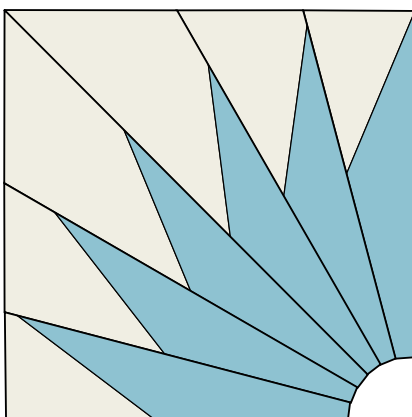

Piece 6

- Use strip sets from B plus 2 3/4" A.
- Place tool words **DOWN** aligning the **PINK** 30° line with the seam of the stripset.
- Cut 14 partial 2 reverse pieces.

- Arrange **Six Squedge** pieces like shown.
- Sew together to make a quad.
- Add a corner triangle.
Use the Squedge Corner Tool for this step. Instructions are shown on the packaging.

Block Center Option: Applique a center circle over each pair of blocks.

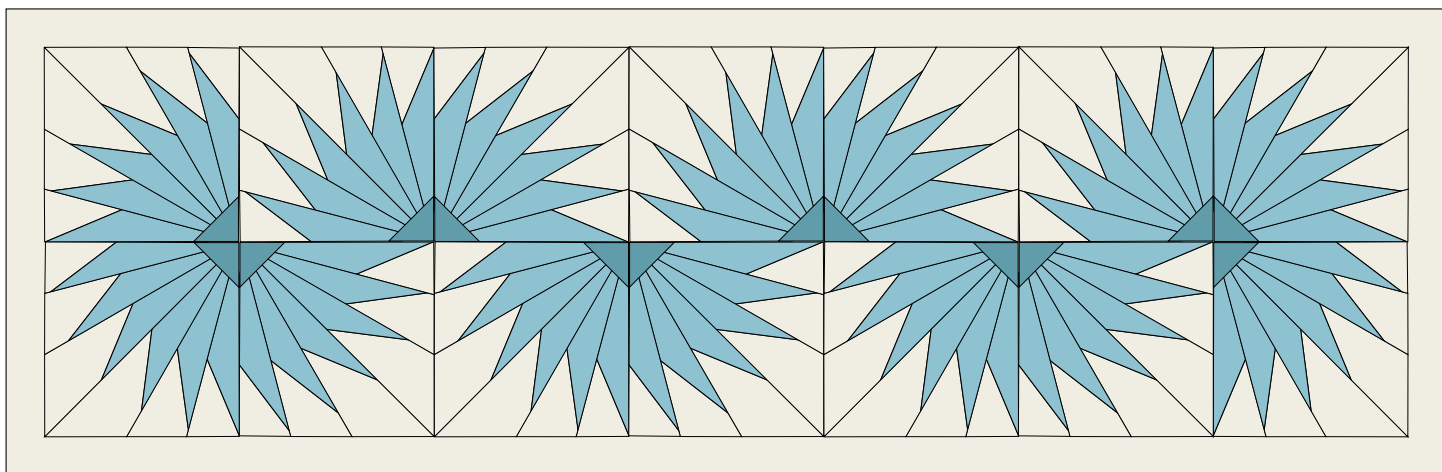

Final Assembly

- Arrange your finished quads as shown.
- Add a border of your choosing.

Need it a little shorter? Take away 2 quads!

- Layer
- Quilt
- Bind

Enjoy!
